

AIRCRAFT MOBILE DEICER SOLUTION KIT

RG - MDIS - 002 - AF

MSRP: \$2,142,076.13

The Aircraft Mobile Deicer Solution Kit is designed specifically for large aircrafts such as the C5 and C17. It has the longest side reach and highest cab/nozzle height of any mobile deicer in the world. The solution kit includes spare parts and preventive maintenance packages. Three truck fills of Anti-Icing and Deicing container sets are all housed within an insulated and powered container that is designed as storage and workstations on the flight line.

VEHICLE SPECIFICATIONS

Overall Dimensions

Height - Stowed	12.10' (3.688 m)
Width	8.5' (2.59 m)
Length Stowed	40.1' (12.22 m)
Wheelbase	216" (5,486 mm)
Weights	53,460 lbs (24,249 kg)
Turning Radius	33.4' (10.16 m)

DEICER REPAIR & PREVENTIVE MAINTENANCE CONTAINERS

The solution kit includes 20' specialized weatherized containers outfitted to properly store and perform maintenance on the flight line to assure all aircrafts can safely operate with minimal time loss due to repair during Flight Ops. The Kit includes sufficient Anti-Icing and Deicing for three truck refills.
