

Product Name:

Spec Ops Low/Vis Field Deployment Calibration System

Part Number:

RG-TACTICAL-LV-CAL-009

MSRP: \$221,184.00

Description:

Calibration equipment designed to support special operations teams in austere environments. Equipment packaging within utilizes custom hardened electrical analyzer with ECG expander and ground assembly pins; EOD X-ray assessment, temperature probe set; Gas assessment, pressurized air/O2 piping system. Equipment stored in ruggedized customized commercial hard and soft mobile cases (non-military color).

Parts List	Qty Per Kit
FOUR-CHANNELDEVICE ANALYZER 120v	1
COMPATIBLE Cable Bundle	1
PULSE ECG ARRAY Simulator	1
MAS GA MAM X-RAY ANALYZER	1
SURVEY SENSOR	1
Electrical Safety Analyzer	1
F TYPE Multimeter	1
Type K Temperature Probe	1
F TYPE Electro S Tester and Analyzer	1
Precision Test BAGS (DUAL)	1
Gas Flow Analyzer AND VAPOR Tester	1
A & MS III Calibrator	1
S THIRTY-FIVE HUNDRED Calibrator	1
AIR FLOW Calibrator	1
Case and Custom Foam	2
